

Safety is our priority!

The safety of our guests at all of our events is our number one priority. We have implemented some changes to our policy to ensure the safety for everyone involved.

- The Staff of Weddings by April Steele will wear masks during the entire event until local regulations deem it unnecessary to continue. We will wash our hands frequently and sanitize while on duty. We will maintain our social distancing goal of 6 feet when engaging with guests, all while providing exemplary service.
- All rental and/or setup items from Weddings by April Steele will be cleaned and sanitized before and after each event.
- Please provide a clean and sanitized work station in the facility for our event staff.

As a guest, You can expect to participate in the following safety check regimens as a guest at our event;

- Please wear a mask before entering the facility. Once you have arrived at your designated area, you can remove your mask.
- Your temperature will be checked on your wrist upon entering the facility. Anyone with a temperature of above 99 degrees will NOT be permitted into the event.
- You will be asked to sanitize your hands upon arrival.
- We will require social distancing to be maintained when possible.
- If you have a consistent cough or show any flu-like symptoms, we reserve the right to ask you to leave.
- If you feel sick, please stay home as to not put any other guests at risk.
